International Live Stock Exposition to be held in Chicago, December 16 to 23.

In order to arrange for better facilities in handling the large attendance anticipated for this great annual event and on account of the inability of the builders to complete the magnificent new amphitheatre on time, it has been found necessary to postpone the Exposition until the dates above mentioned. All of the events advertised will be held on the days of the week corresponding to the dates arranged for the previous week. All preparations are being made to make the event one long to be remembered. The change in the date will bring it at a season of the year when it will no doubt be more convenient for a larger number to attend.

Take your time to do it well What your hand shall find to do: It may lead you, who can tell, To a better place you know.

World is full of shifting men, Fortunes in the air they toss: Never stopping in the glen Long enough to gather moss.

If your task seems quite severe, Work the harder till it's done. Only those who persevere Can rejoice, the victory's won.

Every Niece and Nephew of Uncle Sam

should be deeply interested in what he has said about soda crackers, because they are the one food with which all of them are familiar.

Uncle Sam has given out figures showing that soda crackers are richer in nutriment and body-building elements, properly proportioned, than any food made from flour.

This is saying much for common soda crackers, and much more for **Uneeda Biscuit**, because they are soda crackers of the best quality. They are baked better—more scientifically. They are packed better—more cleanly. The damp, dust and odor proof package retains all the goodness and nutriment of the wheat, all the freshness of the best baking, all the purity of the cleanest bakeries.

Your Uncle Sam has shown what food he thinks best for his people. His people have shown that they think **Uneeda Biscuit** the best of that food, nearly 400,000,000 packages having already been consumed.
